

Dear Sirs:

I am a XM Satellite Radio listener.

I have my own business and traveling by vehicle(my vehicle is my mobile office) is mandatory. I also live in a rural area, when I am home.

I would be very disappointed if this service were not available.

I am able to keep up with current events, via the news channels as well as listen to C-Span on Sunday, which provides a commercial free summary of all the Sunday morning news programs. (I am also able to listen to XM via my home stereo system).

I urge you to reject NAB's petition 04-160!!!!

Thanks for your consideration,

Daryl Hammer
